EDUCATION

University of South Florida

Bachelor of Science in *Business Analytics*

- **Awards:** Dean's List (2023, 2024, 2025), Presidential Scholarship.

Expected May 2027

GPA: 3.92

TECHNICAL SKILLS

Languages: SQL (HackerRank Advanced Certified), Python (NumPy, Pandas, Matplotlib, Seaborn, Polars), R.

BI & Visualization: Power BI, Tableau, AWS Quicksight, Excel.

Data Platforms: Databricks, Snowflake, AWS (S3, Lambda, Athena), dbt.

EXPERIENCE

USF Judy Genshaft Honors College

June 2024 – Present

Business Intelligence Developer

Tampa, FL

- Develop **15 Power BI dashboards** analyzing 100K+ student records using **star schema models and DAX**, partnering with 4 cross-functional teams to define requirements and enable self-service reporting **exceeding quality standards**.
- Validate dashboard metrics through **50+ SQL queries in DBeaver**, cross-checking all visuals and DAX calculations against source data to ensure data integrity.
- Transform **5 leadership ad-hoc requests into automated dashboards within 48-hour deadlines**, eliminating recurring manual reporting work and enabling faster executive decision-making.
- Create 15 in-dashboard user guides and 15 technical **documentation** files on GitHub, **reducing onboarding time by 2 weeks and enabling 30% increase in self-service adoption** across IT and advisory teams.

VSP Vision

June 2025 – August 2025

Business Intelligence Analyst Intern

Remote

- Built automated expense reconciliation dashboard consolidating **40 cost centers across 3 ERP systems** using **Power Query M Code** and DAX, **eliminating 20 hours/month manual work**.
- Redesigned 9-tab resource forecasting dashboard into **2 streamlined role-based solutions** serving 7 executives and 25 managers, **reducing navigation complexity and improving decision-making speed** through targeted metrics.
- **Performed exploratory analysis** on 17K+ financial records using Excel, **identifying $\pm 15\%$ variance patterns and anomalies** that flagged \$2M in expense discrepancies for leadership review.

Elevance Health (formerly Anthem, Inc.)

June 2024 – August 2024

Business Information Analyst Intern

Mason, OH

- Resolved **10 reporting tickets** processing **1.8M claim records** through **SQL** stored procedures with complex joins and CTEs, restoring data accuracy for **15 claims operations stakeholders**.
- Initiated **cross-functional meetings** to replace asynchronous ticket communications, reducing resolution time by 30%.
- Enhanced claims monitoring dashboard processing **100K+ daily records** by optimizing DAX measures and date filtering logic, **improving load time** while maintaining 30/60/90-day rolling windows for executive risk assessment.

PROJECTS

Airbnb Host & Review Performance Analytics | *Snowflake, dbt, Jinja SQL*

August 2025 – Present

- Build dbt ELT pipeline processing 3 Airbnb datasets through **bronze/silver/gold medallion layers** with **SCD Type 2 patterns** to track historical listing prices, **reducing Snowflake compute costs** via incremental materializations.
- Implement **15+ dbt data quality tests** (generic & singular) validating schema conformance, referential integrity, and business logic to **prevent invalid data from reaching production dashboards**.

LEADERSHIP

Google Developer Group on Campus

January 2025 – Present

Community Chair

University of South Florida

- Organize **DevFest 2025 conference** serving **230** participants, coordinating **4 cross-functional teams** and managing project timeline using GitHub Kanban to achieve **62% attendance growth**.

Microsoft x University of South Florida

June 2025 – August 2025

Student Ambassador

University of South Florida

- Built **M365 Copilot AI agent** with custom prompt engineering to automate discrepancy reporting, **reducing analysis time from 1 week to 2-3 hours** and documenting workflows for team replication.
